JUNIOR RED CROSS WORKING AT HOME

Production of Sound American Citizenship the First Aim, Says Dr. Farrand.

On the badge of every member of the Junior Red Cross are the words "I Serve." That tells the story of the school children's branch of the American Red Cross and its efforts to bring happiness to children throughout the world. Realizing that the time never was so propitious as right now for teaching the highest ideals of citizenship, the entire present program of the Junior Red Cross has been framed under the very inclusive phrase, "Training for Citizenship Through Service" for others. Since the Junior Red Cross is the agency through which the American Red Cross reaches the schoolboys and the schoolgirls, all its activities are designed to come within the regular school program, and without creating new courses or increasing the number of studies to lend its aid in vitalizing the work of the schools. "The thing that is needed," says Dr. Livingston Farrand, Chairman of the American Red Cross Central Committee, "is not a perpetuation of the Junior Red Cross, but the training and breeding of sound American citizenship inspired by the true, fundamental ideals of sound democracy. One of the great conceptions in making the Red Cross a contributor to better citizenship in our American democracy is the realization that after all the sole hope of any nation is with the children of the country."

The plan of organization of the Junior Red Cross makes the school—public, parochial and private—the unit, not the individual pupils. Mutual service, helpful community work such as clean-up campaigns, care of the sick, promotion of health regulations, participation in civic and patriotic movements—all these creative agencies designed to translate into life and action the regular school program are parts of the machinery which the Junior Red Cross places at the disposal of the school authorities. Graded study courses giving practical methods of civic training, supplemented by pamphlets and helpful suggestions, are supplied to the local schools by the Junior Red Cross. An elaborate plan for promoting an interchange of correspondence between children in different sections of the United States as well as with children in foreign lands is being devised and will take a prominent place in the established classroom program. In promoting the general cause of child welfare, Red Cross courses in home hygiene and care of the sick, first aid, and dieting may be established in all Junior Red Cross Auxiliaries.

The ideals and the objective of the Junior Red Cross are embodied in the pledge of service which the pupil takes when he signs the membership roll and pins on his coat the Junior's badge. The pledge which binds together service and citizenship reads: "We will seek in all ways to live up to the ideals of the Junior Red Cross and devote ourselves to its service. We will strive never to bring discredit to this, our country, by any unworthy act. We will revere and obey our country's laws and do our best to inspire a like reverence and obedience in those about us. We will endeavor in all these ways, as good citizens, to transmit America greater, better and more beautiful than she was transmitted to us."

At the foundation of this school program of the Junior Red Cross is a great love for America's children. **RED CROSS ACTIVE IN DISASTER RELIEF**
When disaster hits a community—fire, flood, earthquake, explosion, bad wreck or tornado—the American Red Cross can be depended upon to follow right at its heels with help for the stricken people. Red Cross relief is almost immediately forthcoming—food, clothing, shelter and funds; doctors, nurses and special workers with long experience in handling similar trouble elsewhere.

During the last year, ending June 30, there was an average of four disasters a month in the United States. One hundred and fifty communities in twenty-seven states suffered. The largest and most destructive of these were the tidal wave at Corpus Christi, Texas, and tornadoes in Mississippi, Louisiana, Alabama, Georgia, Ohio, Indiana and Illinois. In these events of horror 850 persons were killed, 1,500 were injured, 18,000 were made homeless, about 30,000 families needed help, the property loss was nearly \$100,000,000 and almost \$1,000,000 in relief funds, not including emergency supplies was expended. To the sufferers from all disasters during the year, the American Red Cross sent \$120,000 worth of supplies, 110 Red Cross nurses and seven special relief trains. To meet the needs of the stricken, the organization set up ten relief stations, operated thirty food canteens and as many emergency hospitals. One hundred and twenty-five Red Cross chapters gave disaster relief service. If disaster ever strikes this town or county, the citizens can be absolutely sure the Red Cross will be right on hand to help them in every way.

Living Creatures That Are Immortal. In the Protoson, as Weissmann and others have pointed out, the recuperative processes are so perfect that natural death need never occur; the stable mortal parts of the colloidal substratum can be reduced and restored piecemeal, and the creature never grows old. It is probable that the same is true of a simple animal like the freshwater hydra, which may also be credited with immortality.—New York Herald.

YOUR RED CROSS

The American Red Cross, by its Congressional charter, is officially designated:

To furnish volunteer aid to the sick and wounded of armies in time of war, in accordance with the conventions of Geneva.

To act in matters of voluntary relief and as a medium of communication between the American people and their Army and Navy.

To continue and carry on a system of national and international relief in time of peace and to apply the same in mitigating the sufferings caused by pestilence, famine, fire, floods and other great calamities.

To devise and carry on measures for preventing these causes of suffering.

FIRST AID TRAINING TO MEN AND WOMEN

American Red Cross Is Teaching Hundreds of Thousands Life-Saving Methods.

The purpose of instruction in First Aid to the injured offered by the American Red Cross is to train men and women to administer First Aid treatment promptly and intelligently when emergencies demand it. First Aid treatment is not intended to take the place of a physician's service. A surgeon should always be summoned as a precautionary measure where there is an injury of any consequence, but when one cannot be secured a few minutes' delay may mean a fatality. In such a case a person trained in First Aid is invaluable not only to the individual, but through him to the community in which he lives. There is perhaps no way of ascertaining the number of deaths or serious disabilities which result from lack of proper safeguards or prompt emergency treatment. It is safe to assert they number thousands daily. There can be no doubt that the application of First Aid methods to each case would immeasurably lighten the country's toll of suffering and death.

The dissemination of First Aid training and information has already produced a far-reaching and beneficial influence in the prevention of accidents on railroads, in mines and in great industrial concerns. The benefit of a widespread knowledge of First Aid in the event of a great disaster, such as a train wreck, an explosion, an earthquake, etc., is obvious. Laymen who have had First Aid training can render efficient assistance. Many lives may depend upon such emergency care.

Red Cross First Aid work includes (1) the formation and conduct, through Red Cross chapters, of classes for instruction in accident prevention and First Aid to the injured among men and women in all communities and in every industry; (2) the introduction of courses of instruction in high schools and colleges. The Red Cross is prepared to supply First Aid books and equipment at reasonable prices. Every person in this country able to do so should, in his own interest, receive Red Cross First Aid instruction. Information about the course and instruction classes may be had at the nearest chapter headquarters.

RED CROSS EXTENDS RELIEF TO POLAND

More than \$5,000,000 has been spent by the American Red Cross in aiding the stricken people of Poland. The organization has nursed the sick, fed the starving, clothed the naked, sheltered the homeless, schooled the children and cared for the orphans there. It has conducted a relentless fight against typhus, cholera and other terrible diseases. So today millions of men and women in that resurrected nation speak in grateful appreciation of "The Greatest Mother in the World."

Nearly 200 American Red Cross workers are now engaged in relief activities in Poland. Four large relief bases are in operation and eleven mobile units are in the field. During the last twelve months this organization was largely instrumental in the re-establishment of a million refugees at a cost for general relief of more than \$1,000,000. Last winter one-half million war orphans were aided materially, and since then a series of large orphanages have been established to give them permanent care. But for American Red Cross aid, officials of Poland declared recently, millions of people in that country would have perished of disease, exposure or starvation the last eighteen months. And the work there must be kept up for another year.

Flaw in Diamonds. Flaws in the diamond consist largely of black or carbon spots. These are formed of uncrystallized carbon. Nature in the case of the spotted diamond stays of her hand before she had completed the process of perfect crystallization. Washing Em in a Glass New. Catarhal Deafness Cannot Be Cured
by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarhal Deafness, and that is by a constitutional remedy. **HALL'S CATARRH MEDICINE** acts through the blood on the mucous surfaces of the system. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be removed and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surfaces. ONE HUNDRED DOLLARS for any case of Catarhal Deafness that cannot be cured by **HALL'S CATARRH MEDICINE**. All Druggists Tel. Circulars free. F. J. Cheney & Co., Toledo, O. 113
